

ADVANCED LEASE SYSTEMS MINIMUM SYSTEM REQUIREMENTS

Network System:

Server: *(File Storage Only)*

1. Windows 2003 Server or newer
2. A minimum of 200 MB of free disk space plus 500 MB for a 500 lease/loan maximum system. (Multiply accordingly for larger systems.)
3. Backup system capable of backing up the disk space as outlined above.
4. .Net Framework 4.0 (Full Version, not “client only”). This is available free from <http://www.microsoft.com/net/>.
5. Servers should **Not** be running DFS (Distributed File System) on the directory our software will be installed on.

Workstations:

1. Windows XP SP3 or newer with a minimum of 512 MB of RAM (Memory)
2. Monitor with minimum setting of 1024x768 DPI resolution.
3. A minimum of 60 MB of free disk space.
4. .Net Framework 4.0 (Full Version, not “client only”). This is available free from <http://www.microsoft.com/net/>

We also need a remote connection setup to enable us to access your system for support and periodic updates.

CarCalc Only* – In addition to the above requirements you will also need.

1. Microsoft SQL Server 2008 or Newer. If the free version of Microsoft SQL Express is used, choose the version “With Tools”. Such as Microsoft’s SQL 2008 R2 with tools.
2. Active Directory Domain where users have individual Domain Accounts
3. Static IP Address on your LAN for the SQL Server

*This does not apply to the current Lease Accounting and Management System Version 2.5 and the Loan Accounting and Management System Version 1.5. These additional requirements will be needed for the next releases of these packages.
